

Safety best practice Successes and Good Ideas

One side of Contents topics card

Full pack of playing cards as issued to each Ceilite operative

A different approach to Worker Involvement

In order to change the dynamic that traditional Toolbox Talks are carried out in, Ceilite have developed their own collection of Health and Safety topics, presented in the index form of a pack of playing cards.

Each operative has been issued with their own pack for reference, and as a prompt prior to working for information on a topic.

What's on the cards?

There are 55 safety card talks in each pack, the content is easy to read, and practical rather than legislation-based and therefore do not date.

The informal and novel nature of the cards mean any individual can feel confident to 'lead' a discussion on a topic, with more experienced members of the group making comments where needed.

Interdependent Culture

Not content with only producing something for their own teams, Ceilite have also provided packs FOC for a number of other contractors on site to try out including Lee Warren, GBE, AIS Security, and BAM. As well as to a passing Lend Lease Manager.

These were discussed and issued out at the August H&S Action Group.

They can provide non Ceilite branded packs with Personnel Company branded boxes for £3.32 per pack with a minimum order of 500 packs
